

To Whom It May Concern:

Ken Drake has been my attorney for over ten years. A few days ago his office contacted me asking whether I would consider writing a client testimonial for his new website. I was thrilled and honored to have the opportunity to finally share my experiences and impressions about Ken.

Ken Drake is not only a consummate attorney, he is a man of substance and integrity; this is true on both a professional and personal level. He deeply cares about you as a person as well as a client. Add to this an incredibly sharp legal mind who will fight for your cause, and keep on fighting, and you will take a deep sigh of relief that you have retained the a really fine attorney.

I found Ken not only to be an extraordinary legal advocate, but also a superb legal strategist. He will take the facts of your case, the various sides of the law and factor in the human sensitivities that will impact the case. Yes, he is that good.

Ken has a great office staff. You can tell the lawyers that work for him are engaged and inspired by Ken's drive in serving his clients. In this sense, Ken is the consummate team player. You will notice that the moment you walk into his office. Don't expect pretense and expensive furniture – he isn't one of those Beverly Hills lawyers – what you *can* expect however is excellent client service and a unrelenting advocate. I have personally watched him brainstorm with his lawyers in preparation for my own case. He is a great listener and knows how to meld his own thinking with the lawyers and staff that work with him – he is the consummate team player.

My wife and I jokingly refer to Ken as, “Crusader Rabbit” the guardian of the good who rescues those who are oppressed by the worst in society. In all sincerity, this is what Ken Drake did for me. He helped me through the legal battle of my life – and he was there even when I had gave up all hope!

During my own case, which lasted years, he was always there for me and guided me through the storm. He became my instructor, psychoanalyst, mentor, legal representative and most of all, a well-meaning friend.

In the beginning of my case, a better- known attorney told me I had a one percent chance of winning. After a long and arduous legal battle, we had actually won our case. I guess I got that one-in-a-hundred- attorney.

To put it frankly, against all odds, Ken Drake is the *only* reason I won. And for that, my wife and I are eternally grateful.
